2 TO 6 YEARS

FUNCTIONS

1. CHORD BUTTONS

Eight buttons play eight musical chords. Full C to C scale lets you compose any song.

A chord is when three or more notes are played simultaneously. Chords offer a much richer sound than single notes or plucked strings. Woofers chords were recorded in a studio to be beautiful decaying chords with tones that decay and linger...gently fading as the next chord is played.

2. FUN/OFF SWITCH

Turn dial to select play mode: Electric, Acoustic or Howl Dog. Turning dial to "Off" offers the obvious effect.

3. STRUM BUTTON

When strum button is pressed, strumming the strings will play one of 20 familiar songs. It feels like you are really playing the guitar! Every strum of the strings advances the song by 2 seconds. Keep strumming to keep the song going! Push the 🎸 to jump to the next song.

When strum button is NOT pressed, strumming the strings will play chords that appear random, but if you look at your Lyrics booklet (included), you'll find they are actually chord progressions you could sing along to!

4. WHAMMY BONE

Use the Whammy Bone at just the right moment to make any song all yours. Discover a different effect in each mode: Electric, Acoustic or Howl Dog.

5. VOLUME CONTROL

Keeps everyone out of the doghouse.

6. MUSIC NOTE BUTTON

Press the 🎵 to play familiar songs without lyrics. Sing the traditional lyrics or create your own. B. you! Pushing the 🎸 again jumps to the next song.

7. DOGGY BUTTON

Press the 🐶 to play one of 9 Peppy Puppy songs. Press the 🐶 again to jump to the next song.

8. STOP

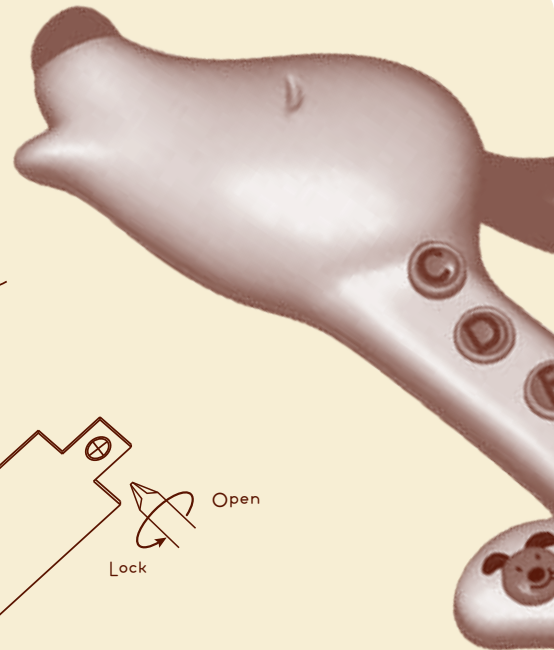

The nose knows when it's time to stop. No matter what is playing.

Auto Off — When left alone for 2 minutes, Woofers howls at the moon then automatically shuts off. Good doggy.
