

B.

Moosical Gears™

18 MONTHS +

Fun and interactive shape sorter with a baaa-zillion playful features.

Two fun modes for your moosical band

Spinning mode

- Match the shapes on the bottom of each animal to the shapes on the gear. Pop them on and hear them make their very own animal sound.
- Use the mushroom knob (2) to spin the gears (1) and play some cool tunes!
- When you spin the gears, the animals will sing along! The more animals you place, the more animal sounds you hear! When you remove an animal, the animal sound will stop as well.
- When you stop the spinning gears, the music will stop. Start up again and the music will pick up where it left off!
- Spinning the gears also makes the chicken's dome (3) light up. Party in the chicken's coop!
- Press the fly button (4) to stop the music and to skip to the next song.

Music Only mode

- Similar to spinning mode, the full song will start to play as soon as you place an animal on its gear (1) — a quick spin of the gears also does the trick.

Cat

Dog

Pig

Sheep

Cow

Spin + Music

The music plays only when you spin the gears.

Music Only

The music plays as soon as you put animals on the gears. No spinning required!

OFF Power off

 Low volume

 High volume

REPLACING BATTERIES

3 AA (1.5V) BATTERIES INCLUDED

- Do not mix old and new batteries.
- Do not mix alkaline, standard (carbon-zinc), or rechargeable batteries.

ATTENTION: Caution: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. **NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
